

Liu Haiyang
刘 海洋
リュウ カイヨウ

Ph.D. student in Forest Field Science at Hokkaido University, working across landscape ecology, ecosystem assessment, remote sensing, and spatial theory.

Education and Research Experience

Ph.D. Student, Hokkaido University

2025/04-2028/04

Graduate School of Environmental Science / Forest Field Science, Sapporo, Japan.

Visiting Scholar, Curtin University

2026/10-2026/12

School of Design and the Built Environment, Perth, Australia.

Research Assistant, The Hong Kong Polytechnic University

2024/07-2025/03

Shenzhen Research Institute, Shenzhen, China.

M.S., University of Chinese Academy of Sciences

2020/09-2023/06

Chengdu Institute of Biology / Biology and Medicine, landscape ecology and restoration ecology.

B.S., Shanxi University

2015/09-2019/06

School of Environment and Resources / Physical Geography and Resource Environment.

Member, Curtin University Geospatial Intelligence Lab

2025/07-present

Skills, Languages, and Professional Service

- **GIS:** ENVI, ArcGIS, QGIS, Google Earth Engine, GeoDa
- **Ecology:** Fragstats
- **Programming:** R
- **Languages:** Chinese (Native), English (Fluent), Japanese (Beginner)
- **Peer Reviewer:** International Journal of Applied Earth Observation and Geoinformation (Q1, 5 reviews); All Earth (Q2, 1 review); GIScience & Remote Sensing (Q1, 1 review).

Selected Publications

1. **Liu, H.**, Song, Y., & Yi, W. (2026). Degree of spatial interpretability. *International Journal of Geographical Information Science* (Q1, IF 5.1).
2. **Liu, H.**, Song, Y., Yi, W., & Zhang, P. (2026). Degree of geocomplexity for diagnosing spatial pattern loss beyond prediction accuracy. *GIScience & Remote Sensing* (Q1, IF 6.9).
3. **Liu, H.**, Tang, Y., Wang, H., & Bao, W. (2024). Forty-two-year dynamics of vegetation landscape restoration pattern and its characteristics in Dagou basin, Maoxian County, Sichuan Province. *Acta Ecologica Sinica*.
4. **Liu, H.** (2022). Dynamics of vegetation landscape restoration and its ecological effects. *Journal of West China Forestry Science*.
5. Sun, Y., Wu, G., Song, Y., **Liu, H.**, Wang, L., Zhang, Z., & Hu, J. (2026). Local effects of pattern interactions in driving urbanization. *International Journal of Applied Earth Observation and Geoinformation* (Q1, IF 8.6).

Academic Conference

- Effects of Sasa mass-flowering and dieback on forest tree regeneration: Preliminary results from a seedling survey (2024-2025) in the Nakagawa Experimental Forest.
- Poster presented at the JaLTER Open Science Meeting 2025 (JaLTER-OSM), Nakagawa, Hokkaido, Japan, October 7-8, 2025.

Awards

- Hokkaido University EXEX Doctoral Fellowship (2025-2028)
- EXEX Doctoral Fellowship Overseas Co-Learning Program Grant, Hokkaido University, 2026
- JASSO Scholarship for Privately-Financed International Students (2025.5-2026.5)
- Outstanding Communist Party Member, Chengdu Institute of Biology, Chinese Academy of Sciences (2023)
- Outstanding Student Award, Chengdu Institute of Biology, Chinese Academy of Sciences (2023)
- Scholarship for the Second Year of Studies, School of Environment and Resources, Shanxi University (2017)
